For people who only receive emails

For: hiring managers, MRF approvers, interviewers, and recruiters answering their questions. **Version:** October 2026.

You don't need an ATS account. Everything you do starts from a link in an email from the AAPNA recruitment mailbox. Each link works only for you and only for a limited time. Don't forward it.

Hiring managers

Email	What to do
New MRF Request (from a recruiter)	Click the link and fill in the requisition: role, number of openings, mandatory and good-to-have skills, experience, qualification, budget, and the JD. Submit
Approval outcome	Your MRF was approved or declined ("Declined: New MRF Request"). Once approved, recruiters start screening candidates for it
Missing JD	The JD couldn't be read or wasn't attached. Use the link to upload it

The recruiter can see the MRF's status and approval trail at any time.

MRF approvers

Email	What to do
New MRF Request — Approval Request	Read the requisition. Click **Approve** or **Reject** in the email. The page that opens shows the requisition and your choice; add a comment if you like and confirm
Confirmation	Your decision was recorded
Already decided	Another approver decided first. **One approval is enough**; nothing more is needed from you

- Your link is **personal** and records who decided, when, and your comment. It expires after **14 days**; the recruiter can send a fresh one.

- If you open the link after a decision, the page shows who decided and when. This is not an error.
- No reminders are sent once an MRF has been decided.

Interviewers

Email	What to do
Interview Scheduled — Panel (Outlook invite)	Accept it. It has the Teams link, date and time, and candidate's name and position. Reschedules and cancellations come the same way
Interview Reminder — Panel	A reminder shortly before the interview
Did the (round) with (candidate) take place?	Sent after the interview if Teams couldn't confirm it. Open the link: **Yes, we met — score now** takes you straight to the scorecard; **No — it didn't happen** records that. A scorecard is only requested for interviews that took place
Please score your round (scorecard link)	Fill in the scorecard: ratings, comments, your recommendation. **Submit** within **7 days**; the link expires after that
Reminder: your feedback	Your scorecard is still waiting
Candidate pack (from a recruiter, sometimes)	A download with the candidate's resume, reports and earlier scorecards, for an external interviewer. Delete it after **30 days**, as the pack asks
Recording link (sometimes)	A private link to watch an interview recording. It expires after **14 days** and can be withdrawn

Interviewers are never told whether a candidate is an employee referral. That keeps the assessment unbiased.

Candidates (for recruiters answering questions)

Email	Candidate does
Welcome / profile registered	Nothing
Complete your profile	Fills a short form with missing details (experience, CTC, notice period…). Reminders stop once it's done
Shortlisted (with the JD)	Reads about the role; the Zeko interview link follows
Zeko interview invitation	Takes the AI interview within the window
Evalground test	Takes the test by the due date
Interview scheduled / reminder / rescheduled / cancelled	Joins the Teams interview
Stage outcome (moved on / on hold / not selected)	Nothing
Documents required	Uploads documents through the secure link (no login).

	Up to 3 reminders
Offer	Sent by HR outside the ATS; the ATS records it

Candidates never see interview scores, internal notes or referral information.
